Dear Parents,

We had a great start at Jackson this week! We hope to continue to have healthy students as we move through the school year. It will be a team effort for sure, but, we have been successful at this for the past year.

Here is what we are doing to help on our end:

- Eating by teacher class when eating inside the gym (beginning on Monday)
- Eating outside as much as possible
- Spraying lunch tables between classes
- Spraying the play structure railings on days when the play structure is an open zone
- Washing hands as a class throughout the day
- Keeping class sets of recess/PE equipment
- Spraying desk tops, door handles, and faucets in classrooms while students are at lunch
- Encouraging individual water bottles instead of water fountains
- Table top air filters in every classroom in addition to MERV-13 filters in the HVAC systems

What you can do:

- Do a quick health assessment of your children before school each day.
- Help us by keeping students who are exhibiting symptoms at home.

Any **TWO** low risk symptoms- please keep your child home.

- Fever
- Congestion/runny nose
- Nausea/vomiting/diarrhea
- Cough
- Sore throat
- Headache
- Fatigue/muscle aches/body aches

Any **ONE** high risk symptom- please keep your child home.

- Difficulty breathing
- Loss of taste/smell
- New onset of confusion
- Excessive sleeplessness/inability to stay awake

Should your child be exposed to a positive person at school or in our community, you can follow the Decision Tree. There are options for quarantining on the new Decision Tree, so please familiarize yourself with this tool. There is a link in Superintendent Shoemake's letter that you received last night. We will always be here to help you navigate your choices and answer any questions that you may have.

Sincerely,

Michele Williamson

care solace

Calming the Chaos of Mental Health Care.

As our community prepares for this year's historic back-to-school season and the full reopening of our school campuses, we expect returning to in-person learning will bring both relief and possibly different challenges as we adjust to a different school experience.

Jackson is committed to the safety and well-being of our students, staff, and families. In addition to the safety measures that we are putting in place to continue to combat the spread of Covid-19, **Rescue Union School District** has partnered with Care Solace to support our community's mental health.

Jackson students, staff members, and their families can use Care Solace to quickly find verified mental health, behavioral health, and substance use treatment options matched to their needs, regardless of circumstances. Care Solace's team is available 24/7/365 and can support you in any language.

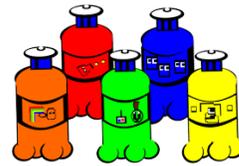

If you would like to use Care Solace to help you find a provider:

- Call 888-515-0595 available 24/7/365
- Visit www.caresolace.com/ <https://and> either search on your own OR click "Book Appointment" for assistance by video chat, email, or phone.

Water Bottles

Please make sure to have your student bring a water bottle with them to school daily.

It will be incredibly helpful to have your child's name clearly labeled on their water bottle

Our main parking lot is for staff only. With the influx of new teaches we do not have enough parking spaces for everyone. If you are dropping your child off please do not park in our main parking lot. Please use the parking spaces located down on Francisco by the bus gate.
